Yamaha T-60 (1991, \$180, owner's manual) search eBay The T-60 is a
cheapie FM-AM quartz-locked digital tuner with 16 presets that can be
found with a silver or black face. It's not related to the T-70 or
T-80 and we wouldn't bother with it since those other tuners are
common and can be had so inexpensively. The T-60 sells for \$20 or less

Yamaha: The name evokes memories of my youth when those much-coveted receivers were out of financial reach, leading me to rely upon entry-level Kenwoods and Pioneers and others that sounded worse. Everyone who ever had a cheap receiver blow up that's what caused me to move from Kenwood to Pioneer or heard an old Akai that made LPs sound like 128kbps MP3s, please raise your hands.

My goal is 100% satisfaction and I really appreciate the positive feedback when I get it. I feel the audiophile community is a great one to work with. Everybody wants the same thing: great sounding music. I concur about packaging. Original packaging is always best. If I don't pack it up, I've had excellent work by UPS staff.
