Denis Rancourt is a former professor of physics at the University of Ottawa. Rancourt is a recognized scientist but is more widely known for his confrontations with his former employer, the University of Ottawa, over issues involving his grade inflation and "academic squatting," the act of arbitrarily changing the topic of a course without departmental permission.

Available subjects include physics, chemistry, biology, earth science, history, geography, economics, or politics. Most students choose their electives based on their intended field of study in university. Promotion to the next grade is based on educational assessment and evaluation, with midterm and final exams at the end of each semester.
