INTRODUCTION. Twenty-five years ago, the concept of using Agrobacterium tumefaciens as a vector to create transgenic plants was viewed as a prospect and a "wish." Today, many agronomically and horticulturally important species are routinely transformed using this bacterium, and the list of species that is susceptible to Agrobacterium-mediated transformation seems to grow daily.

This is a list of Ig Nobel Prize winners from 1991 to the present day.. A parody of the Nobel Prizes, the Ig Nobel Prizes are awarded each year in mid-September, around the time the recipients of the genuine Nobel Prizes are announced, for ten achievements that "first make people laugh, and then make them think". Commenting on the 2006 awards, Marc Abrahams, editor of Annals of Improbable ...

Major Francis Monogram or, as he likes to be known, simply Major Monogram (due to the fact that people often tease him about his first name) is Agent P's commanding officer, and gives him his mission in each day. Helping him transmit his daily messages and do general things around the Agency is his intern, Carl. From the third season on, he does not hate being called Francis. When Francis ...

In a sense, yes. The Earth is composed of layers having different chemical compositions and different physical properties. The crust of the Earth has some permanent magnetization, and the Earth's core generates its own magnetic field, sustaining the main part of the field we measure at the surface. So we could say that the Earth is, therefore, a "magnet."
