There is an easy way to find out if your car is driven by a timing chain or timing belt motor. If, on the side (not top) of the engine, either left or right, there is a plastic cover, your car has timing belt. If there is no plastic on the side, you have a timing chain. Here is a video that explains and shows the point.

It should have a real name. One Barber-Nichols employee, who was also a falconer, said Mueller should name the engine after a falcon. Then, she began listing various species of the bird. Mueller chose the merlin, a medium-sized Falcon, for the first-stage engine. He named the second-stage engine after the smallest of falcons, the kestrel.
