Go Global The eTrex series is the first-ever consumer-grade receivers that can track both GPS and GLONASS satellites simultaneously. When using GLONASS satellites, a system developed by the Russian Federation, the time it takes for the receiver to 'lock on' to a position is (on average) approximately 20 percent faster than using GPS.

It can be manual driven or power driven, but not often power driven because slotted head has 'cam- out effect'. Now what does it mean? Well 'cam-out effect' is a process by which the screwdriver tends to slip off from the surface of the screw head, when the torque applied on the surface of the screw exceeds a certain limit or sometimes ...
