The trim-and-tilt feature uses an electro-hydraulic mechanism to raise or lower the motor slowly. In general, most trim-and-tilt features move the propeller end of the outboard motor about 90 degrees. There are a number of different outboard trim-and-tilt units that are based on the size and type of outboard motor.

A distinctive feature of Evinrude engines is the ability to start them regardless of the level of charge of the self-contained power source and the ambient temperature. All motors are equipped with high-performance dual electric generators, providing energy to the operation of the injection system and control electronics.

The new 880 is much more than a feature packed Corsair. Careful attention has been paid to the fine detail. Hugely significant is the aft cabin area which gives the boat the ability to sleep 5. The manual or dry-bowl electric toilet is housed in an enclosed heads with overhead hatch ventilation – no smells in this new generation 28-footer.
