I'm the New York Times Bestselling author of ten suspense novels including The Winter People and Promise Not To Tell. My latest, The Drowning Kind, will be out in April. I've written about ghosts, serial killers, shape shifting monsters, an evil fairy king, a kidnapping rabbit, and now, a terrifying swimming pool.

For our shirts, we'll be working with iron-on vinyl, also known as heat transfer vinyl, or HTV. Iron-on vinyl is a special type of vinyl that has a heat-sensitive adhesive that will stick to fabric and other surfaces when pressed down with a heat source like an iron or an EasyPress. I will show you how to use both an iron and an EasyPress in this tutorial.

Learning by doing. The biggest takeaway from our work this past year – and the one thing I hope any reader of this post will take away – is that data collaboration is a spectrum. From the presence (or absence) of data to how open that data is to the trust level of the collaboration participants, these factors may necessarily lead to different configurations and different goals, but they can ...
