SCIENTIFIC The assertion that autistic people lack a theory of mind—that they fail to understand that other people have a mind or that they themselves have a mind—pervades psychology. In this article, we critically examine the empirical basis of this assertion. We review empirical evidence that fails to support the claim that autistic people are uniquely impaired, much less that all ...

Measurement is an integral part of modern science as well as of engineering, commerce, and daily life. Measurement is often considered a hallmark of the scientific enterprise and a privileged source of knowledge relative to qualitative modes of inquiry. [] Despite its ubiquity and importance, there is little consensus among philosophers as to how to define measurement, what sorts of things are ...
