Longboards for Speed. Downhill longboarding is about speed since you can hit 50-65 mph. Extreme longboarders actually can hit 80-90 mph. Many elements such as your riding technique, potential to push and pump, the slope gradient, your weight, the design of the board you’re riding, your speed tuck and your braking potential; all blend to yield your true speed.

E3 has taken the lead in developing a superior car spark plug design that offers several benefits to our customers. Most spark plugs create a flame shape that moves sideways, outward from the electrode. Thanks to E3’s diamond-shaped architecture, the flame kernel moves toward the air/fuel mixture to create higher combustion pressure.

The Crazy Cart is way cool, and it drifts really well. My nephew and his friends love riding it, and it has a strong battery life. Although this is a kids toy, I’m an adult (about 150lbs), and I had a great time on it, my nephew actually had to make me give it back to him ha! I loved it so much, I’m definitely going to check out the adult ...
