Skype Camera Not Working - Windows 10 1. Reinstall Skype. The obvious solution is to uninstall Skype, download the latest version, and reinstall it. Here is how you do it. Open the Settings app and go to the Apps group of settings. Select the Apps & features tab. From the list, click on Skype and select Uninstall. Now Reboot your system.

[How to Fix Skype Camera Not Working in Windows 10](#)

You can also buy Skype credit, to call non-Skype numbers, or even (in some parts of the world) set up a Skype landline, which looks like a local number but connects to your Skype account. All of these features are interesting and, to some users, really useful. The overall usability of Skype depends hugely on the quality of your internet connection.

[Download Skype for Windows - Free - 8.73.0.124](#)

Introduction. With the latest updates, Skype no longer prompts the user to save a file somewhere, but immediately saves all files to a specially designated folder, and finding the folder to move files fr om it to another directory, or open them with an application other than that set by default, is sometimes a difficult task. By default, this folder is located at the following address "C ...
