A large number of Indian Standard (IS) codes are available that are meant for virtually every aspect of civil engineering one can think of. During one's professional life one normally uses only a handful of them depending on the nature of work they are involved in. Civil engineers engaged in construction activities of large projects usually have to refer to a good number of IS codes as such ...

The typical sulfur recovery efficiencies for a Claus plant are on the order of 90–96% w/w for a two-stage plant and 95–98% w/w for a three-stage plant. Most environmental agencies require the sulfur recovery efficiency to be in the range of 98.5–99.9+% w/w and, as a result, there is the need to reduce the sulfur content of the Claus plant ...
