Cluster headache (CH) is a neurological disorder characterized by recurrent severe headaches on one side of the head, typically around the eye. There is often accompanying eye watering, nasal congestion, or swelling around the eye on the affected side. These symptoms typically last 15 minutes to 3 hours. Attacks often occur in clusters which typically last for weeks or months and occasionally ...

Most of the important things I've learned have come from books, articles, speeches, and other media. After seeing how Derek Sivers publicizes his book notes, I decided I would publicize all of my summaries and notes from books, speeches, articles, and other things I was reading. To get the notes, click on any linked title.
