The USGenWeb Project was launched in 1996, initially as a genealogy database for Kentucky. Since then, it's branched out to incorporate genealogy records for all 50 states, which are treated to a comprehensive range of census records, military records, obituaries, newspapers, and maps. This makes it one of the most detailed free ancestry websites on the web, although it has to be noted that its site map is quite sprawling and takes some getting used to before you can navigate it with ease.
